

**RESPONSE**

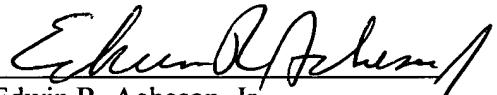

In the September January 6, 2006, Office Action, the Examiner objected to the drawings as including certain reference characters which were no mentioned in the specification. By this Amendment, Applicants have amended the written description to include references to the reference characters previously omitted. No drawing revisions are necessary.

In the same Office Action, the Examiner rejected all of the claims under 35 U.S.C §102(a) or §103(a). By this Amendment, Applicants have cancelled the previously pending claims, and added new claims 45-64. These claims more specifically describe the structure previously claimed and its interaction with the lift bay floor, and Applicants believe that the claims are in condition for allowance.

Applicants respectfully request that the Examiner contact the undersigned by telephone if there are any open issues unresolved by this Amendment and Response.

Respectfully submitted,

BRYAN TAYLOR
